

CENTRAL BANK OF EGYPT

Your Money, Your Future — Financial Literacy Guide

Published by the CBE Financial Inclusion Unit | Free Distribution

1. Why Save?

Saving even EGP 100 a month adds up to EGP 1,200 a year — plus interest. A savings account at any Egyptian bank earns between 12% and 18% annual interest depending on the product. Start small, grow steadily.

2. Managing Your Salary

A simple rule: spend no more than 50% of your salary on essentials, save at least 20%, and use the remaining 30% for lifestyle expenses. Set up an automatic transfer on payday so saving happens before spending.

3. Understanding Loans

Before taking a personal loan, calculate the total cost. A loan of EGP 50,000 at 20% annual interest over 3 years costs approximately EGP 66,000 in total repayments. Compare offers from at least 3 banks.

4. Protecting Your Account

Never share your PIN, OTP, or card number with anyone — including people claiming to be bank staff. Banks will never ask for this information by phone or SMS. Report suspicious activity to 16000.
