

BANK MISR

Annual Report 2023 — Risk Management Review

Published for Shareholders and Public Distribution

Credit Risk

The bank classifies its loan portfolio into three risk categories: low risk (performing loans with no overdue payments), medium risk (loans overdue 30–90 days), and high risk (loans overdue more than 90 days or under restructuring). This classification is applied at the portfolio level and does not relate to any specific individual customer.

AML Compliance Overview

The bank maintains a robust Anti-Money Laundering programme that includes customer due diligence, enhanced due diligence for high-risk categories, source of funds verification policies, and automated sanctions screening. Total AML-related training hours in 2023: 45,200 hours across 8,400 staff.

Operational Risk

Total operational risk capital requirement: EGP 2.3 billion. Risk-weighted assets totalled EGP 980 billion. The bank recorded zero material operational risk events in 2023.

This report is published in accordance with CBE Pillar 3 disclosure requirements and is available on the Bank Misr official website.
