

BANK MISR — STRICTLY CONFIDENTIAL

Internal Audit Finding — Ref: IAF-2025-017

Internal Audit Division | For Management Use Only

Audit Area: Branch Cash Management — Alexandria Zone

Audit Date: 10–14 January 2025

Finding Type: High Priority

Observation

During the audit of three Alexandria branches, the team identified that end-of-day cash reconciliation records for December 2024 were incomplete in 2 of 3 branches audited. Specifically, the daily cash register sign-off was not completed on 4 occasions, creating a gap in the audit trail.

Risk

Incomplete reconciliation records increase the risk of undetected cash discrepancies and may constitute a CBE compliance breach under the Internal Controls Circular (2023). This is rated HIGH risk.

Management Response

Branch Operations Manager (Alexandria Zone) has acknowledged the finding and committed to implementing a daily supervisor sign-off checklist by 1 February 2025. Compliance confirmation required by 28 February 2025.
